PORTAFOLD

IS A
MARVELLOUS
PIECE OF
WORKMANSHIP

says
well known actor
JON PERTWEE

at The Camping Exhibition, Olympia, London, December 1972 — as seen on both BBC and ITV.

"I have chosen a Portafold after about a year's research into the sort of thing that I want to fulfil all the things that I need for my particular job. The Portafold is exactly right for what I want.

When I'm away filming on location it can be very cold in the winter and so I need something I can go and hide in and use as an office.

Also you haven't got the problems of parking, because it all folds down flat and doesn't look unsightly in your front garden, so the result of my research is the Portafold which I think is a marvellous piece of workmanship".

While Jon has not yet shown us how to emulate his famous "Tardis" by making the Portafold larger inside than it is outside, many hundreds of Portafold owners at home and abroad have echoed Jon's views during the last 15 years.

As Jon found out, there is usually a lengthy waiting list for the Portafold, but as he said — "It's worth waiting for".

So cut down your waiting time by ordering now direct from The Sole Manufacturers & Distributors:—

PLASTICS (Fareham) LTD ©www.portafold.co.uk

BROADCUT, WALLINGTON, FAREHAM, HANTS PO16 8SX
